

Job cover letter

Dear HR Recruiting Services,

My name is Syed Nayeemur Rahaman, I have extensive experience in the IT industry. My background, as described in my CV, includes various positions such as IT Operations Support, IT security, End User Computing and IT infrastructure deployment Engineer. "

What makes me ideal for this role is my ability to deliver the service in Desktop Support, IT system, hardware, and software solutions.

I bring you not only my practical experience in the entire IT function of a company but also my expertise in coordinating project teams in your company.

In addition, I have extensive knowledge of "ITIL, Windows, Unix, SQL, Financial tools, Banking and Service Domain, Jira Service Desk, Citrix, CISCO, VMWARE, Networks, and Servers."

On a personal level, I am a hardworking, efficient and kind person who is a member of the IT professional Event Group. I have received many rewards from Customer leadership and functional leadership during my service tenure.

If this brief account of my competency's intrigues, you enough to invite me for an interview then feel free to contact me. I would very much

I welcome your invitation to an interview.

Relocate: Yes

Thank you!

Best Regards,

Syed Nayeemur Rahaman
